## Terminal Disclaimer

The terminal disclaimer filed on 10/25/2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of USP 6,693,475 has been reviewed and is accepted. The terminal disclaimer has been recorded.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

. The following changes have been made to the subject application:

## Claim 4:

Line 1, "33" has been changed to --3--; "at least one" has been deleted.

## Claim 5:

Line 4, "at least one" has been deleted.

## Claim 9:

Line 1, "1" has been changed to --33--.

The changes have been made in order to comply with the 35USC 112, second paragraph and to place the application in a condition for allowance.

1. The following is an examiner's statement of reasons for allowance: the amendment filed 10/25/2004 has overcome prior art of record. The prior art of record fails to teach or fairly suggest first clocking circuit operable to generate a first clock signal, the first clocking circuitry operating at a first operating voltage, a second clocking circuitry operable to generate a second clock signal, the second clocking circuitry operating at a second operating voltage, a delay

Art Unit: 2816

adjuster configured to receive the compensation signal and operable to delay the first clock signal to compensate for the phase difference between the first and second clock signals as called for in claim 33, modifying a signal level of a signal to generate a first clocks signal having a first signal level that is different than a second level of a second clock signal as called for in claims 30 and 38. Therefore, claims 2-9 and 30-40 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan T. Lam whose telephone number is 571-272-1744. The examiner can normally be reached on Monday to Friday (7:30 am to 6:00pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, TIMOTHY P CALLAHAN can be reached on 571-272-1740. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
